What is the FAFSA?

- The FAFSA is the "Free Application for Federal Student Aid." You must complete and submit the FAFSA to the U.S. Department of Education (ED) every year you need financial aid (scholarships/grants, work study, loans) to attend a community college, 4-year college, university or career/vocational trade school.
- Information you and your parent(s) provide on the FAFSA is used by the Financial Aid Office at the school you attend to determine your eligibility for financial aid and the amount/type of aid you receive.

How and when can I complete/submit the FAFSA for 2022–2023?

- You can complete the FAFSA online at **FAFSA.gov** or by using the *MyStudentAid* app beginning **OCTOBER 1, 2021**.
- "Tool Tips" are available at each question in the application to provide help in providing all required information (*click on question mark symbol next to the question being answered*).
- Help also is available from ED at (800) 4-FED-AID; or from Stand by Me at 2-1-1.

- You are considered DEPENDENT if you answer **NO** to all the questions – *if you do so, you will need to provide your parent(s) information in Sections 4 and 5 of the FAFSA. Follow the directions regarding SPECIAL CIRCUMSTANCES at the end of this section if you are unable to provide your parent(s) information. Section 4: Parent Demographics

- This section will be displayed if you are DEPENDENT and indicated at the end of Section 3 that you would provide parent(s) information—it will not be displayed if you indicated you have SPECIAL CIRCUMSTANCES at the end of Section 3. It also will be displayed if you are INDEPENDENT and opted to voluntarily provide your parent(s) information at the end of Section 3.
- Your legal parents are your BIOLOGICAL or ADOPTED parents. They are not your grandparents, aunts/uncles, foster parents, legal guardians.
- Information must be provided about BOTH legal parents if they currently live together (regardless of their marital status). If they do not currently live together, then information is to be provided by the “custodial parent”—that is the legal parent with whom you live with more of the year at the current time. If that parent has remarried, then your stepparent must also provide information. See the “Tool Tips” if more information is needed.

Sections 5: Parent Financials and Student Financials

- Information about wages earned will need to be entered manually from all W-2s even if the IRS DRT is used.
- All income and taxes-paid information must be from your **2020 federal tax return** on the **2022–2023** FAFSA (even if your 2021 federal tax return is available). Contact the Financial Aid Office at each school you listed in Section 2 of the FAFSA if your family’s financial situation has changed from what is reported on the 2020 tax return and would reduce your family’s ability to pay for college (e.g., change in marital status, loss of employment) to explain these **special circumstances**. The Financial Aid Office may make an accommodation for this change. You likely will be required to document your changed circumstances.
